Tolomeo 10 inch Double Shade Suspension By Artemide

Description

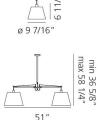

Make a grand statement with the Tolomeo 10 inch Double Shade Suspension, an expansive and highly adjustable lighting fixture designed to command attention in larger spaces. This impressive suspension light features fully adjustable, extruded aluminum arms that provide an exceptional reach and allow for precise positioning. Adorning these arms are two elegant 10inch shades, available in sophisticated Parchment Paper or modern Grey Fiber, offering a soft, diffused glow that enhances ambiance. The iconic joints and tension-control knobs in polished die-cast aluminum, along with internal tension springs and external tension-control cables in stainless steel, showcase the meticulous engineering and robust construction synonymous with the Tolomeo collection. It requires two 150-watt max 120-volt medium base bulbs (not included). With an impressive 51-inch width, 6.7-inch height, and an adjustable length ranging from 36.6 to 58.25 inches, with a 10-inch depth per shade, this fixture provides extensive coverage. UL listed for safety, customers frequently highlight its stunning architectural presence and versatility for large rooms, making it perfect for illuminating long dining tables, grand living areas, or conference tables with its distinct contemporary charm.
