CDP Color Dial Controller with Power Adapter

By PureEdge Lighting

Description

CDP Color Dial Controller with integrated power adapter is a standalone DMX lighting controller for Edge Lighting RGB fixtures. Easy to install, the wall-mountable assembly is ideal for applications that desire a variety of effects with an easy to use interface. Multiple lighting effects can be accessed and modified with the simple-to-use rotary/push dial (no programming required). Select from solid color or animated rainbow modes. Push the dial to turn lights on or off. Rotate the dial to adjust brightness. CDP comes ready to mount into a standard U.S. multi gang wall box. A 24VDC 100mA power adapter (included) fits discreetly inside the junction box behind the controller. It is designed for power and data connections to be hardwired directly to the back of the controller. Switches are provided to disable/enable effects during installation. 2 inch width x 4.1 inch height x .85 inch depth.
