DIY LCS.6 Light Channel 0.6 Surface Mount

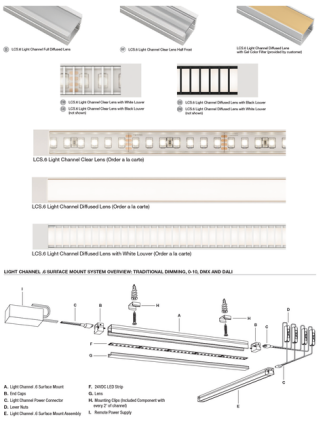

By PureEdge Lighting

Description

The functional and architectural Do-It-Yourself (DIY) LCS.6 Surface Mount Light Channel delivers smooth, continuous light with pixel-free illumination. The slim and shallow profile in paintable aluminum is .6 inch high, field-cuttable, and available with multiple lens options with black or white louver. Both the clear and diffused lens options are gel color filter suitable allowing for color personalization (gel filter sold separately). Start the ordering process by selecting the desired channel and lens length. Then order the required Stomp/Soft LED Strip, End Caps (pair) and Power Feed. Includes mounting clips for every 2 feet of channel. See LED strip for required power supply options. NOTE: Required power supply, LED strip, end caps, and power feed; and optional accessories as needed sold separately. Product is built to order

Shown in satin aluminum / clear lens
