# J6RL 6IN Warm Dim 600 Lumen Retrofit Downlight Trim

By Juno Lighting

## Description

The 6 Inch 600 Lumen WarmDim Retrofit LED Trim module with patented WarmDim technology offers the warmth of incandescent dimming while providing a fast, economical way to upgrade existing 6-inch housings to energy-efficient LED illumination. Available in a variety of finish and cone or baffle options with 3000K color temperature at full lumen output. Produces 600 lumens of brilliant LED light from less than 12 watt input. Comparable light output to a 65 watt BR30 incandescent. These all-in-one modules (including LED and driver) are IC-rated, enabling them to be installed in housings covered with insulation. Energy Star. UL listed. Suitable for damp locations. Compatible with most 6 inch recessed housings with medium base sockets measuring 5.25 inch high with an inside diameter between 6 and 6.75 inch, or Juno IC23-LEDT24 and IC23R-LEDT24 quick connect recessed housings, sold separately. Dimmable with most standard incandescent or electronic low voltage dimmers. Note: E26 screw base adapter not included
