Mini+ Book Light and Phone Charger By Lumio

Description

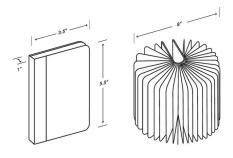

The Lumio Mini+ Book Light is a compact, portable, multi-functional lamp and battery pack for mobile phones that conceals itself in the form of a hard-cover book. Made from durable, water resistant and 100% recyclable Dupont Tyvek, the book light is available in a variety of different color combinations, featuring a magnetic spine cover that is inter-changeable. You can open it as little or as much as you want, up to 360 degrees, allowing you to have just the right amount of light for the occasion. A rechargeable lithium polymer battery provides up to 8 hours of wireless power with continual use and 3 times extra battery power for your mobile devices. Charge the book light itself via USB from any USB charger. The book light comes with built-in charging cables, battery power indicator and the convenience of light power while still charging your phone.
