15A Tamper-Resistant GFCI Outlet with Night Light

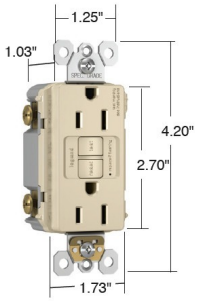

By Legrand Radiant

Description

Radiant Tamper Resistant 15A Self Test Night Light/GFCI features a self-test GFCI which conducts an automatic test every three seconds, ensuring it's always ready to protect. If the device fails the test, the indicator light flashes to signal that the GFCI should be replaced. It also has Legrand's proven SafeLock Protection feature: if critical components are damaged and protection is lost, power to the receptacle is disconnected. Thinner than most other GFCI receptacles leaves more room for wires in the box. Available in White, Ivory, Light Almond, Black, Dark Bronze, or Nickel. UL listed. NOTE: RADIANT SCREWLESS WALL PLATE SOLD SEPARATELY.

Shown in dark bronze

Dimensions for
15 & 20 Amp
