Demetra Micro Swing Arm Wall Light

By Artemide

Description

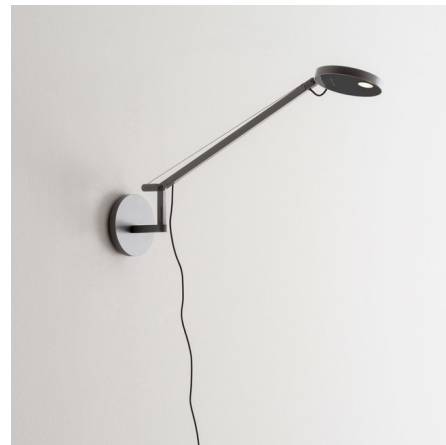

The Demetra Micro Swing Arm Wall Light offers unparalleled precision and flexibility in a compact, elegant form, making it the perfect task lighting solution for focused illumination. This highly adaptable fixture features a fully adjustable arm and head, allowing for extensive movement, and a diffuser that is both tiltable and rotatable, ensuring light can be directed exactly where it's needed. Crafted with meticulous attention to detail, this lamp is available with a sleek White or Anthracite finish, offering versatile aesthetics to complement your interior. It includes an integrated 7-watt 120-volt LED module, providing efficient and bright illumination for detailed tasks or reading. Furthermore, the Demetra Micro Swing Arm Wall Light offers a choice of 2700K or 3000K color temperature, allowing you to select between a warm, inviting glow or a crisp, neutral light to suit your preference. A convenient dimmer is thoughtfully located directly on the lamp head, providing effortless control over brightness levels. This lamp is an ideal choice for bedside reading, office desks, or any area where precise, adaptable lighting is essential.
