Cordoba Pendant

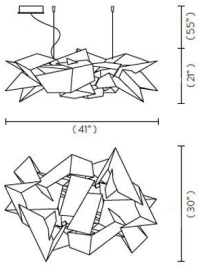

By Slamp

Description

Cordoba Pendant, designed by Daniel Libeskind, is an architectural expression of contrasting geometric forms arranged into a harmonious, sustainable, and luminous sculpture that exudes originality. The lamp is a series of asymmetrical fragments that create complex relationship within the form. The design is inspired by the Spanish Cordoba, its architecture and the mysticism of light it inspired. Flat sheets of patented techno-polymer material take shape using an algorithm that diffuses the light throughout a seemingly endless structure. Cordoba is handmade, and offers varying points of view even when seen as a whole. Close attention has been paid to maximizing its illumination, creating a perfect dialogue between daring artistic form and the romanticism necessary to enjoy every kind of living area. TRIAC, 0-10V, or PWM dimmable.

Shown in white

Specifications

COLOR	White
BODY FINISH	N/A
WATTAGE	130W
DIMMER	Standard 120V
DIMENSIONS	76"L x 41"W x 21"H x 30"D
INTEGRATED LED MODULE	1 x LED/130W/120-277V LED
COUNTRY OF ORIGIN	Italy

Technical Information

COLOR RENDERING	90 CRI
LAMP COLOR	3000K
