

**BRAND** PureEdge Lighting

**DESCRIPTION**

SS10C Tunable White 2K6K Soft Strip provides variable color temperatures of high power light. The Soft Strip includes 9.6 watts per foot and can be controlled to operate at either 2000K or 6500K, or any color temperature in between. Set the mood by dialing in the desired color temperature to simulate different light sources. Sold in 1 foot increments up to 10 feet and may be cut every 2.4 inches. Some unfinished surfaces may require screw-in mounting clips, sold separately. Soft Strip is compatible with solderless Snap & Light Connector for making turns and custom configurations. Strip includes industrial 3M tape for strong self-adhesion to most smooth, finished surfaces. Product is built to order. A DMX color changing power supply or 2XK 0-10 power supply is required and sold separately. 0-10 power supply requires two dimmers -- one for intensity and one for color temperature. DMX power supply must be used with PureEdge controller (CDMX1-2XK). Note: Required power supply, Snap & Light power connector, dimmer/controller, and optional accessories sold separately.

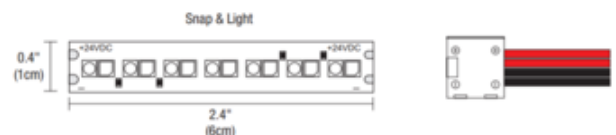

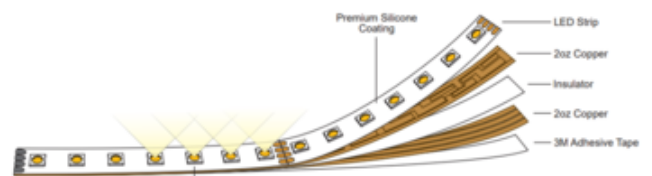

<b>SHADE COLOR</b>	N/A
<b>BODY FINISH</b>	Aluminum
<b>WATTAGE</b>	9.6W
<b>DIMMER</b>	Dimmable
<b>DIMENSIONS</b>	12"L x 0.47"W
<b>INTEGRATED LED MODULE</b>	
<b>LAMP</b>	1 x LED/9.6W/24V LED
