

BRAND Smart & Green

DESCRIPTION

The Charging Tray is a recharging panel for simultaneously recharging 12 bulbs on the same plug. All Smart and Green products are rechargeable LED lamps. A few clicks is all it takes to customize these lamps which will fit in perfectly with your home interior as well as your exterior. Go for a welcoming or romantic atmosphere based on the mood you'd like to diffuse. Controlling lights has never been this easy! Check out our online user guide to step-by-step learn how to pair and un-pair and discover all about the features the app offers. Note: Do not charge when wet.
