Bow Floor Lamp

By tossB

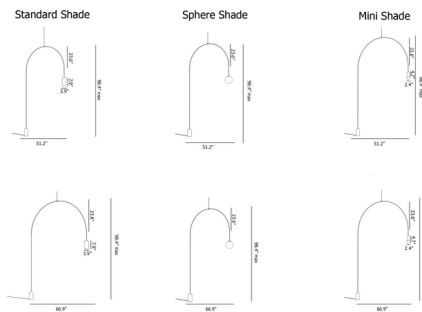

Description

Bow Floor Lamp, designed by David Dolcini, is inspired by one of the basic shapes in architecture, the arch. It's part of our daily life - even if we don't notice it - and it expresses at the same time deepness, strength and equilibrium. Bow tries to translate the essence of the arch into a minimalistic luminaire. Gravity and balance, combined with the arch, are the other ingredients involved in the design of this product. The lamp is anchored to the ceiling with a cord clip and supported by a weighted base on the floor, with the cable running from the shade to the base through the arched frame.
