Bow III Pendant

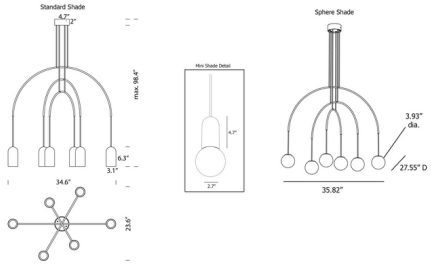

By tossB

Description

The Bow III Pendant, designed by David Dolcini, is inspired by one of the basic shapes in architecture, the arch. It's part of our daily life - even if we don't notice it - and it expresses at the same time deepness, strength and equilibrium. Bow tries to translate the essence of the arch into a minimalistic luminaire. Gravity and balance, combined with the arch, are the other ingredients involved in the design of this product. Note: The Brushed Brass finish is only available with Sphere Shades.
