Disk Wall / Ceiling Light

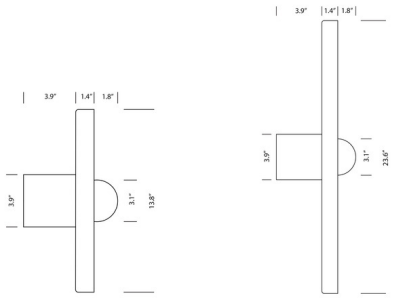

By tossB

Description

Disk Ceiling Flush/Wall Light, designed by Jean Francois D'or, is a saucer of golden light, gently diffusing throughout your room, like the shimmering sound of a gong. As a lamp above a table, the disk creates a warm and intimate atmosphere, almost as if you were sitting in a secluded alcove. By adjusting the height of the disk above the floor, you can vary the overall strength of the lighting. Brilliant rays of bright light will flood over all your interior surfaces. Available with a White finish in small and large sizes. One 60 watt, 120 volt A19 medium base incandescent bulb is required, but not included. CE listed. Small: 13.77 inch width/height on the wall x 5.13 inch height/depth on the wall. Large: 23.62 inch width/height on the wall x 5.13 inch height/depth on the wall.
