Ypso Pendant

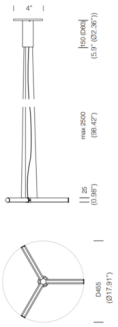

By tossB

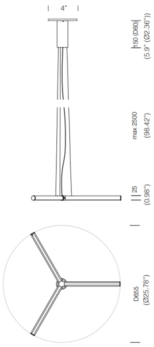

Description

The name ypso refers to the letter ypsilon on which its shape is inspired. The light is spread in three directions creating a large area of illumination. When installed in group, ypso seems to create structures in the air. A 3D printed connection piece is holding the tubes in place and provides a nice detail to the design. This playful pendant lamp is equipped with a high efficient LED strip available in two different sizes in Black and White finishes. Available in 2700K and 3000K color temperature options. Canopy diameter: 4 inch. ETL Listed. Dimmable with a leading/trailing edge dimmer, sold separately.

Shown in black

Specifications
