Projecteur Wall Light By Nemo

Description

The Projecteur Wall Light was inspired by the fixtures Le Corbusier designed for India's Chandigarh High Court in 1954. The aluminum body is paired with a rounded, sandblasted glass diffuser that is fastened to the body with locking clips. The body is mounted on an adjustable frame that can be tilted and rotated to aim the light beam. Maybe installed as a wall or ceiling light. The 8.7 inch diameter fixture includes a Matte Black finished frame and canopy. The frame and canopy of the 14.6 inch diameter fixture are in the same finish as the lamp's body.

Shown in matte black / night blue
