## Ball Flex Bracket Wall Light

By Michael Anastassiades

### Description

The Ball Flex Bracket Wall Light, designed around the classic incandescent bulb, is an exercise to abstract the bulb into a perfectly spherical ball, celebrating its perfect shape by repeating it in metal. The brass finish is unlacquered and will naturally oxidize and darken over time. Includes a paintable junction box cover which will cover standard 4 inch junction boxes. The j-box cover extends beyond the fixture and will be visible.

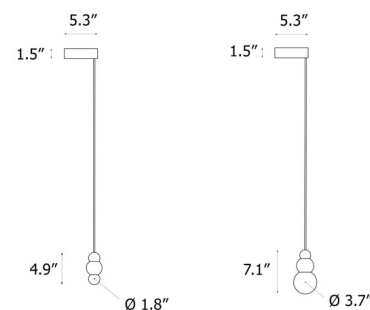

Shown in polished brass / opal
