Pipe Wall / Ceiling Light

By Artemide

Description

The Pipe Wall / Ceiling Light transforms any surface with its undulating form, inspiring a whimsical and artistic atmosphere. This versatile fixture features a robust steel base, meticulously coated with a soft-touch silicone sheath, ensuring both durability and a pleasant tactile experience. Its signature element is the flexible and adjustable arm, which culminates in a perforated, transparent polycarbonate diffuser with a unique rubber-effect coat. An internal reflector within the diffuser works to create pleasantly sheer ambient lighting, casting a gentle and inviting glow. Designed for ultimate adaptability, the Pipe Wall / Ceiling Light can be mounted seamlessly on either the ceiling or the wall, allowing you to direct light with precision and creativity. It is dimmable via reverse or forward phase dimming, providing effortless control over light intensity and ambiance. This fixture is an excellent choice for adding a playful yet sophisticated touch to hallways, bathrooms, or any contemporary space in need of adaptable, artistic illumination.
