New Nature Floor Lamp

By Artemide

Description

Immerse your space in the enchanting glow of the New Nature Floor Lamp, a captivating piece that delivers both diffused and indirect LED lighting. Its organic, fluid form, crafted from durable thermoplastic material and grounded by a sleek Chrome plated steel base, brings a sense of modern artistry and natural inspiration into your home. This innovative floor lamp features a dual lighting system designed for comprehensive illumination. The main indirect emission emanates from the upper part of the luminaire, casting a soft, ambient light upwards to wash your ceiling and create a general glow. Simultaneously, the LED diffused emission is thoughtfully located at the base, highlighting the interior of the column and accentuating its unique, sculpted shape. For ultimate control, the New Nature Floor Lamp includes a dual control on its cord, allowing for independent operation of the two light sources. You can easily switch the diffused lighting on or off, while the indirect source is fully dimmable, enabling you to tailor the perfect ambiance for any moment. This lamp is an ideal choice for living rooms, studies, or bedrooms where layered, adaptable lighting and a unique design statement are desired.
