Mercury Ceiling Light

By Artemide

Description

The Mercury Ceiling Light by Ross Lovegrove is a breathtaking sculptural piece that transcends traditional lighting, creating a dynamic relationship between reflected light and its surrounding environment. This stunning fixture appears as a floating assembly of polished pebble-like objects, suspended beneath a sleek ceiling plate. The design features a die-cast satin aluminum lighting unit at its core, while the shimmering, chrome-polished reflective units are crafted from injection-molded thermoplastic, mimicking the fluid, organic forms of natural elements. When illuminated, light bounces off these highly reflective surfaces, creating a mesmerizing play of light and shadow that truly animates your ceiling. Available in two versatile sizes, the Mercury Ceiling Light allows you to select the perfect scale for your space. You also have the choice of 2700K or 3000K color temperature, enabling you to fine-tune the ambiance to either a warm, inviting glow or a crisp, neutral light. This fixture is not merely a source of illumination; it's a living art installation that continuously interacts with its environment, making it a spectacular focal point for any modern interior.

Specifications

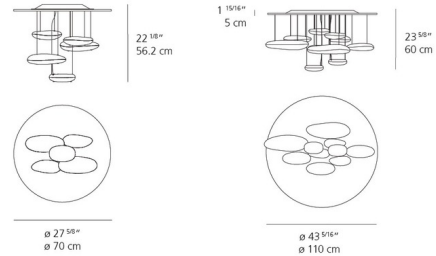

COLOR Stainless Steel
 BODY FINISH Polished Aluminum
 WATTAGE 29W
 DIMMER Low Voltage Electronic
 DIMENSIONS 27.6"W x 22.1"H
 INTEGRATED LED MODULE 1 x LED/29W/120-277V LED
 COUNTRY OF ORIGIN Italy

Technical Information

LAMP LIFE 50000 hours
 COLOR RENDERING 93 CRI
 LAMP COLOR 2700K
 LUMENS/WATT 46.41
 LUMINOUS FLUX 1346 lumens

Shown in polished aluminum / stainless steel
