Meteorite Mini Wall / Ceiling Light

By Artemide

Description

Discover the subtle yet captivating beauty of the Meteorite Mini Wall / Ceiling Light, a versatile fixture that brings unique artistry to compact spaces. This small but impactful light features a truly distinctive glass shade, meticulously created through a complex series of artisanal techniques including molding, frosting, sandblasting, and etching. The result of this intricate process is a shade with a textured, organic surface that evokes the raw, natural beauty of its celestial inspiration. When illuminated, the unique glass diffuses light softly and evenly, creating a warm, inviting glow that minimizes harsh shadows. Ideal for both wall and ceiling applications, the Meteorite Mini Light is perfect for adding a touch of artistic flair to small hallways, powder rooms, or as a decorative accent in a larger contemporary space. Its unique craftsmanship ensures that each piece is subtly one-of-a-kind, providing both functional illumination and a charming visual element.
