Demetra Spot Wall Light

By Artemide

Description

The Demetra Spot Wall Light offers highly precise and adaptable illumination in a sleek, compact form, ideal for targeted lighting solutions. This minimalist fixture is available in a crisp White or a deep Anthracite Grey, allowing for seamless integration into diverse contemporary aesthetics. Its standout feature is a fully adjustable and rotatable head, which provides exceptional control, allowing you to aim the light exactly where it's needed for reading, accenting artwork, or illuminating specific areas. This flexibility ensures maximum functionality within its subtle design. For tailored light quality, you can choose between a 2700K (a warm, cozy light) or 3000K (a slightly less warm, still inviting light). This fixture is offered with or without a switch on the head, providing further customization for your installation needs. With compact dimensions of, the Demetra Spot Wall Light is an excellent choice for bedrooms, studies, or any space requiring focused, adjustable light with refined style.
