Bloom Pendant By Resident Lighting

Description

The Bloom Pendant is inspired by the gentle dynamic flow of paper lanterns, resulting in transparency and light. Two contrasting materials, a finely perforated mesh core and frosted blown glass, combine to project a soft focus texture onto the inside of the shade. At the same time, an unobstructed pool of light is projected downwards onto objects below. Bloom's distinct character is evident both in its on and off state, creating a versatile piece. Available with a White or Textured Black shade and a Black cord in two sizes. 4.17 inch diameter canopy in Black finish. UL and CE listed.

Specifications
