## Cielo XL Pendant - Floor Model

By Pablo

### Description

Cielo XL Pendant enables light to act as an expressive element with its minimal form and glare-free flat panel LED module. Cielo's classic shape integrates into any environment, regardless of style, and it can be suspended individually or in a series to provide warm and balanced illumination. Note: The body of the pendant features a machined texture, while the canopy features a smooth texture. Due to this difference, variations in the color of the pendant's body and canopy are to be expected. NOTE: This is a discontinued model and limited to quantity on hand.
