Splitty Pro Desk Lamp

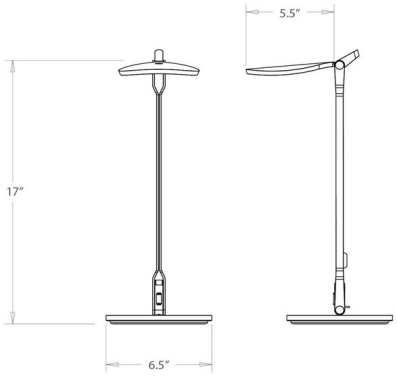

By Koncept Lighting

Description

One of Koncept's most flexible lights, the Splitty Pro Desk Lamp is named after its unique joint design. Designers Kenneth and Edmund Ng perfected the diffused light source with hidden LEDs so that the lamp performs as a radiant ambient light as well as a functional task light. Charge your phone or other USB-compatible products with the built-in 2A USB port on the base which offers faster charger than the Splitty Original. Splitty Pro is controlled by the indented on/off button on the top of the LED head. Simply press and hold the button to control the brightness. Splitty Pro also features a discreet occupancy sensor to maximize energy efficiency. Available in Silver or Matte Black. Mounting options include standard table base, base with Qi wireless charging base, through table mount, and grommet mount.

Shown in matte black

Specifications
