Kinetic Chandelier

By Modern Forms

Description

Whether you think of gyroscopes, the atomic structure, or da Vinci's L'Uomo Vitruviano, the Kinetic Chandelier has deep roots in science, exemplified by brilliant edge-lit LED panels with silicone diffusers that broadcast 360-degrees of seamless, even light. Even better, those rings are rotatable for a personalized look. Slope ceiling adaptable. Hang straight swivels up to 90 degrees. 120-277V driver concealed within the canopy, dimmable with a 0-10V dimmer, sold separately. Available in three sizes with a Black or Titanium finish. Note: 60 Inch version requires a UL approved J-Box with a max 200 pounds to hang due to weight of fixture.

Specifications

COLOR	N/A
