Solar Outdoor Lamp By Foscarini

Description

Solar is a new type of object, a contemporary hearth around which to gather and chat, at home or outside. Features a white diffuser body with a dark wood top. The hemispherical body, made of polyethylene, is stable even when it is tilted by 15 degrees. The angling determines the quantity of light diffused, allowing multiple effects and atmospheres to be created. Electric cable covered in neoprene for outdoor use. Fixture is hardwired and requires installation. UL listed for wet locations.

Shown in dark wood / white
