Eclisse Table Lamp

By Artemide

Description

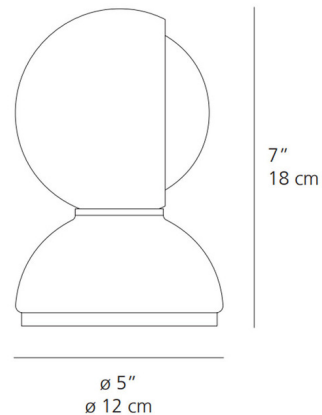

Own a piece of design history with the Eclisse Table Lamp, an iconic representation of Italian industrial design that continues to captivate. Inspired by a miner's lamp carried by Jean Valjean in Victor Hugo's *Les Misérables*, this lamp is a masterclass in interactive illumination. It is ingeniously composed of a fixed outer shell and a moveable inner shell. The magic happens as you manipulate this inner sphere, creating the effect of an eclipse allowing you to either unleash bright, focused light or subtract it for a soft, diffused glow. This interactive element makes the Eclisse truly unique in its ability to control ambiance. The lamp's painted metal body is available in a crisp Polished White or a vibrant Polished Orange, adding a pop of contemporary or Midcentury Modern flair to any space. A convenient on/off switch is located on the cord. Remarkably versatile, the Eclisse can also be wall mounted, further extending its functional possibilities. Customers consistently rave about its clever design and playful interaction with light, making it a cherished item for collectors and design enthusiasts alike.
