

DESIGNER

Vico Magistretti

BRAND

Artemide

DESCRIPTION

An icon of Italian industrial design, the Eclisse Table Lamp can provide direct or diffused light. Inspired by a miner's lamp used by Jean Valjean in Les Misérables, the lamp is composed of a fixed outer shell and a moveable inner shell. Manipulation of the inner sphere creates the effect of an eclipse allowing the user to add bright light or subtract for a diffuse glow. Eclisse can also be wall mounted. Painted metal body available in Polished White or Polished Orange with On/Off switch on cord.

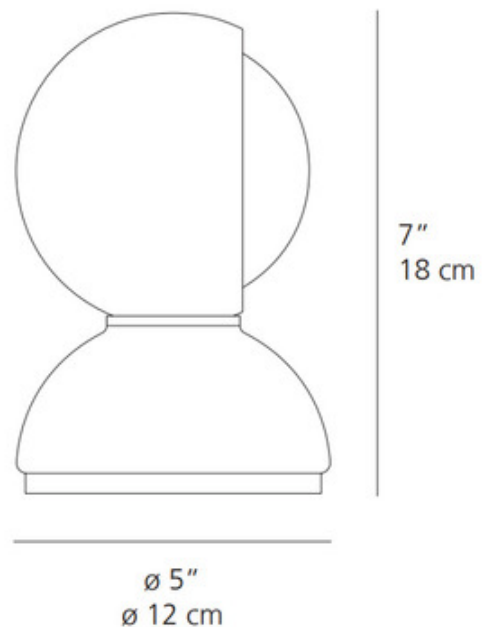

Shown in: Polished White
