Italo Ventania Metal Ceiling Fan

By Matthews Fan Company

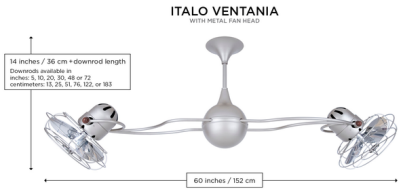

DAMP

Description

The Matthews-Gerbar Italo Ventania Metal Ceiling Fan is the largest ceiling fan in the Matthews Fan Co collection. Its vortex sculpted arms grasp also remarkable, side-mounted blades in gentle, equatorial rotation. The fan head can be infinitely positioned in 180 degree arcs for optimum air movement. The greater the angles of the motors to the horizontal support rods, up or down, the faster the axial rotation. A slow, controlled axial rotation is achieved by both fan head position and fan blade speed. The 360 degree rotation can circulate heat and air condition more effectively that traditional fans.Available in a variety of finishes with matching metal safety cage. Features a 31 degree blade pitch and 13 inch diameter per head. Includes a flat ceiling canopy, one 10 inch downrod, and a 3 speed Decora-style wall control in White. UL and cUL listed. Limited lifetime warranty. Additional downrod lengths and vaulted ceiling canopy sold separately.

Shown in polished chrome
