Watson Ceiling Fan with Light

By Hunter Fan

Description

For traditional style and a compact form ideal for smaller indoor spaces, choose the Watson Ceiling Fan with Light. Its five flared blades and 3-speed WhisperWind motor deliver comfortable airflow, with the SureSpeed Guarantee ensuring high air velocity for faster cooling. The blades are reversible for matching them to your interior design. The fan also has an LED light, providing plenty of ambient illumination. A pull chain turns the fan on and off and controls speed, and a separate chain turns the light on or off. Fan direction can be reversed using a switch on the fan. Optional accessories are sold separately.
