**DESCRIPTION**

Inspired by the parallels that exist between lighting and jewelry, Arrangements is a modular system of geometric light elements that can be combined in different ways, creating multiple compositions into individual chandeliers. Each unit simply attaches onto the previous one as if resting, balancing perfectly as a part of a glowing chain. Includes one Round Small element with choice of two additional elements. Contact [designs@lightology.com](mailto:designs@lightology.com) to design your own Arrangements. Dims via 0-10V dimming. In the absence of additional wiring required for 0-10V dimming, the fixture may be dimmed directly from the canopy.
