T537LEDG2 12V LED-Compatible Electronic Transformer

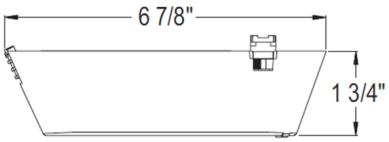

By Juno Lighting

Description

T537 G2 features a low profile, contemporary housing design made of high impact polycarbonate with an integral on/off switch. Constructed using high quality, LED-compatible LTF Model TA60WA 12V AC transformer. Designed to accept Juno Trac-Master 12V AC halogen or LED lampholders with a non-Quick Jack interface. May be used with Juno Trac-Master or Trac-Lites Series track or designated monopoints. Compatible with most 12VAC LED lamps (contact manufacturer to confirm compatibility). May also be used with incandescent (halogen) lamps.

Shown in white
