

BRAND

Noon Home

DESCRIPTION

Combine with a Room Director to expand your lighting scene possibilities. Only NOON automatically creates scenes by blending the lights that are already in your room. Or create custom scenes to match the mood or enhance any activity. NOON automatically identifies your existing bulb types and configures itself for smooth dimming, without buzz or flicker. Extension Switches are expertly coordinated by the Room Director to beautifully illuminate any room. Want an impromptu change? Extension switches also dim lights individually. Just click. With a lighting designer built in, your lights will do things they've never done before. Easily replaces your existing light switch. Control from anywhere. Requires four wire installation.
