

BRAND

Nora Lighting

DESCRIPTION

The Nora Prism 4 inch smart LED retrofit baffle downlight changes the color of light and color temperature to meet the designer's or end user's needs as they change. Programmable from 2700K to 4000K when on the white color setting and offers thousands of RGBW color possibilities. Factory set at 2700K, installed units can be adjusted to your preferred kelvin temperature or color individually or by group of fixtures. Using Bluetooth technology, the Prism can be programmed with a smartphone through the ControlLIT app (free from Google Play or the App Store) for both iOS and Android, and then controlled by your smartphone or a handheld remote. A standard on/off wall switch can be used for on/off functionality. Control the lights all as one, by zone, or one by one. Includes a medium base socket adapter. The Prism can be easily retrofitted into existing 4 inch housings or installed in remodel or new construction applications. Optional controllers sold separately.
