## Ledur Color Select 120V Edge-Lit Under Cabinet By Nora Lighting

## Description

The Ledur Color Select 120 Volt Under Cabinet LED lighting series uses edge-lit placement of diodes to give a uniform reflectance of light. Fixture allows the end user to select between kelvin temperature (2700K, 3000K, 3500K, 4000K or 5000K) at any time with two lumen output options in each fixture (275 or 475 lumens per foot). Includes two switches to change the color temperature and lumen output. Features integral electronic dimmable LED driver and built-in on/ off rocker switch. Fixtures linkable up to 400 watts. Included components: Ledur Under Cabinet Light, end to end connector, mounting hardware, 1/2 inch die-cast metallic cable clamp, and lumen output switch and color temperature switch. Integral dimmable driver with TRIAC and ELV dimming. Optional mounting accessories sold separately.
