Tizio 35 Floor Lamp

By Artemide

Description

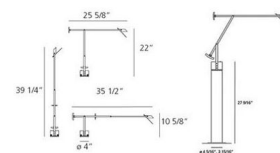

Experience the genius of the Tizio design in an expansive floor lamp format with the Tizio 35 Floor Lamp, a fixture that offers precise, adjustable illumination and bold contemporary aesthetics. It features a stable floor support in lacquered steel with a snap-in adapter kit in molded thermoplastic. An incorporated low voltage transformer and a two-intensity on/off switch provide effortless control. The lamp boasts fully adjustable arms crafted from anti-corrosion treated aluminum, delivering exceptional reach and versatile light positioning. Distinctive chromed steel arm spacer bars with vibrant red, molded thermoplastic insulators, alongside perfectly balanced zinc alloy counterweights, ensure smooth articulation and a striking visual contrast. The adjustable diffuser, made from die-cast aluminum with an inner high efficiency reflector in anodized aluminum and UV protective glass, optimizes light output. A 360-degree rotatable base further enhances its adaptability. The lamp with its floor support is available in a classic Black finish only. UL listed for safety, customers consistently praise its unmatched adjustability and architectural elegance, making it an indispensable tool for focused work, reading, or adding a sculptural element to any modern living space.
