Skydro Electrified Ceiling Light

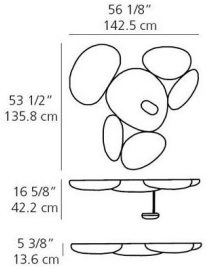

By Artemide

Description

The Skydro Electrified Ceiling Light is an avant-garde masterpiece, transforming your ceiling into a dynamic, reflective art installation. Crafted from ABS injection-molded reflective die-cast aluminum, this fixture features a striking organic form, supported by a robust painted steel bearing structure. Its modular design allows for incredible flexibility, enabling you to create a myriad of configurations simply by adding extra units, making it perfectly adaptable to spaces of any size.When illuminated, the integrated 29-watt 120-volt LED light source works magic, bouncing light off the highly polished, pebble-like surfaces. This creates a mesmerizing play of reflections and shadows that animates your ceiling, adding depth and visual intrigue to the entire room.The Skydro Electrified Ceiling Light isn't just a source of illumination; it's a living, breathing sculpture that continuously interacts with its environment. This fixture is an ideal choice for modern living areas, grand entryways, or commercial spaces seeking a truly unique and artistic lighting statement.

Shown in polished chrome
