

Qlocktwo Touch Clock Special Edition

Description:

Qlocktwo Touch Special Edition Black Metal is a precision timepiece with alarm. Just like its globally successful big sister Qlocktwo, the table clock displays the time using a matrix of letters to form words. Qlocktwo is a compact practical clock to complement any office, living room or bedroom. Also available in 7 different colors and with front panels in different languages, as well as in large wall version. The LED brightness automatically adjusts to the ambient light with the aid of a light sensor positioned behind the matrix, whereby the time can also be comfortably read at night time. Brightness can be manually adjusted. 5.3 x 5.3 inch, 0.7 inch depth.
