Vex 5 Outdoor Wall Sconce

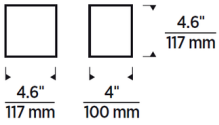

By Visual Comfort Modern

Description

The Vex 5 Outdoor Wall Sconce features a simple profile that blends well with any style, and is ideal for accent lighting, ambient lighting, wall grazing, and wayfinding applications where precise beam angle is essential for functional or decorative effects. Beam angles can be adjusted from 10 to 120 degrees tools-free, and angle markers ensure consistent beams from fixture to fixture. Beams can be symmetric or asymmetric, and uplight and downlight beam angles can be set independently. Die-cast aluminum construction and a powder coat finish ensure durability against harsh elements. A universal 120-277V driver is included, dimmable with a TRIAC, ELV, or 0-10V dimmer.
