DESCRIPTION

The RL639 6 Inch Smart Hue Retrofit Baffle Trim has been engineered for most 6 inch incandescent recessed housings in the market. Includes medium Edison base adapter for retrofitting into existing housing. Glare reducing cut-off angle of 55 degrees. High performance optic hides LED chip image. Features Smart Hue (RGB + Tunable White) technology allowing a color tuning range of 5000K-2700K. Light can be dimmed from 100-10 percent while maintaining constant color temperature. Gradients of saturated colors from 1-100 percent can be added to color points within the tuning range. Smart Hue can change the atmosphere in a space by manipulating the color temperature of the room. For instance, the temperature is warm at sunrise, cool at noon high, and warm again by sunset. LED driver is rated for 50 to 60HZ at 120V input, produces less than 20 percent THD, and has a power factor between 0.90 and 1.00. Dimmable down to 10 percent with Bluetooth App (see attached manufacturer spec for additional information).
