Zipp Linear Suspension with Center Feed Power By PureEdge Lighting

Description

Zipp Suspension Downlight with Center Feed is a linear fixture that offers spot-free direct light in a clean, contemporary style. Available in a range of increments from 36 to 120 inches and features a white diffused lens with 100 degree beam or clear frosted lens with 60 degree beam, optional white or black louver, multiple finishes, three wattage options (Note: 2 watt not available with optional louver), and a spectrum of color temperature options. Warm Dim option includes 5 LED watts per foot available in 2700K-2000K (27D) and 3000K-2000K (30D) color temperature. Unlike standard LEDs, Warm Dim LEDs are designed to shift to a warmer color temperature as they are dimmed, replicating the effects of incandescent and halogen light sources. Note: Warm Dim available in 5 watt option only. Includes a linear canopy (size dependent on length of fixture) with 120 volt input, 24VDC output Universal (UNI) power supply and 12 foot adjustable coaxial cables (additional aircraft cables for support when fixture exceeds 96 inches). Dimmable with ELV/TRIAC/0-10V. Note: Product is built to order.

Specifications

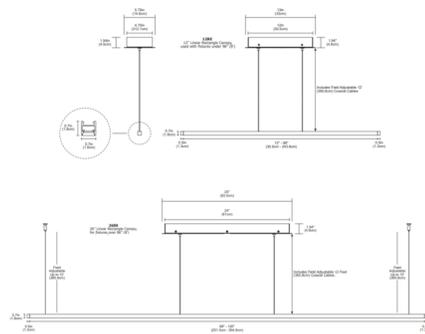

COLOR White Lens
 BODY FINISH Satin Nickel
 WATTAGE 15W
 DIMMER Low Voltage Electronic
 DIMENSIONS 36"L x 0.7"W x 0.7"H
 INTEGRATED LED MODULE 3 x LED/5W/24V LED
