Wirering Wall Light
By FLOS

CE

Description

The Wirering Wall Light is an exercise in reduction, stripped back to its most essential elements, offering beautifully rendered light. The wire holds a simple ring fitted with an LED strip. Provides indirect light and is composed of extruded aluminum with a fine plated or painted finish. The special customized tangent cable, made of colored rubber, is fixed to the wall with ABS joints in the same finish as the ring. Includes foot On/Off/Dimmer switch on cord. Wirering uses a plug-in power supply with interchangeable plugs. Available with a Grey, Pink, or White cable and a Gold, Polished Black, White, Pink, or Grey ring.

Shown in gold / grey
