Kelvin LED Desk Lamp with Sensor By FLOS

Description

The Kelvin LED Desk Lamp is equipped with a sensor that measures the room light and automatically adjusts the lamp's light intensity to it to save and use energy in an ideal way. The operation mode is displayed on the lamp head with an indicator light, which usually lights up in orange. Once it is touched, the indicator light then turns green and confirms that the Kelvin LED Green mode table lamp is operating in the energy-saving mode. Touch-sensor 3-step dimmer on lamp head.
