## Pod Pendant By LZF

### Description

The Pod Pendant is a vertically elongated and ellipse-like orbit of light whose body is made up of a repeated series of Wood Veneer strips. A small gap between each strip on the Pod allows just a peek at the light within. The Pod is appreciably ostentatious, having a fresh manner that smiles and illuminates its surroundings with an altruistic sense of cool. It is a pendant that works well discretely or as part of a striking cluster. Supplied with 8 feet of cable to customize overall height.
