Calipso Suspension

By Artemide

Description

The Calipso Suspension by Artemide, a fascinating creation from Neil Poulton, is a testament to the unexpected beauty that can arise when technology meets natural inspiration. This pendant light is instantly recognizable for its truly unique honeycomb grill, a pattern born from a surprisingly organic process. This distinctive fractal shape was generated by feeding a photograph of the moon into an image-based algorithm, found on a seemingly extinct computer. The resulting composition is a mesmerizing organic honeycomb of circles of varying diameters, seemingly arranged in a random geometry that mimics nature's beautiful irregularities. The Calipso Suspension provides a soft, diffused light through this intricate pattern, creating a comfortable and visually engaging ambiance. It offers flexible control, being dimmable via 2-wire or 0-10V dimming systems, though please note that 0-10V dimming requires two extra wires from the dimmer to the power supply in the canopy. Further customization is available with a choice of 2700K or 3000K color temperature, allowing you to tailor the warmth of the light to your preference.

Specifications

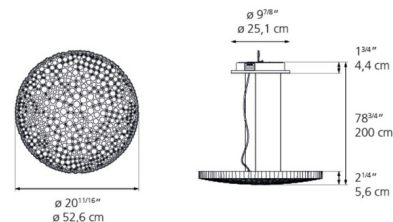

COLOR	N/A
BODY FINISH	White
WATTAGE	58W
DIMMER	0-10V
DIMENSIONS	20.7"W x 2.25"H
INTEGRATED LED MODULE	1 x LED/58W/120-277V LED
COUNTRY OF ORIGIN	Italy

Technical Information

PRODUCT DIMENSIONS	Cord: 78"L
COLOR RENDERING	90 CRI
LAMP COLOR	3000K
LUMENS/WATT	49.72
LUMINOUS FLUX	2884 lumens

Shown in white
