Roll Bubble Pendant

By Herman Miller

Description

Nelson Bubble Lamps designed by George Nelson produced by Herman Miller. The Nelson Roll Bubble Pendant illuminates any room with a soft, warm glow. With a silhouette softer than a square, its cylindrical form gently floats from the ceiling on an adjustable cord. Nelson designed the Bubble Lamps in 1952, inspired by a set of Swedish hanging lamps that had a price tag too steep for him to afford at the time. The Roll shape was added to the series in 2018 after being rediscovered in the George Nelson Foundation archives.

Specifications
