## Roll Bubble Pendant

By Herman Miller

## Description

Nelson Bubble Lamps designed by George Nelson produced by Herman Miller. The Nelson Roll Bubble Pendant illuminates any room with a soft, warm glow. With a silhouette softer than a square, its cylindrical form gently floats from the ceiling on an adjustablet cord. Nelson designed the Bubble Lamps in 1952, inspired by a set of Swedish hanging lamps that had a price tag too steep for him to afford at the time. The Roll shape was added to the series in 2018 after being rediscovered in the George Nelson Foundation archives.
