Rippled Wall / Ceiling Light - Overstock

By Louis Poulsen

Description

Rippled Wall/Ceiling Flush Light designed by Jakob Wagner, consists of a concave White Opal polycarbonate front with ripples like rings of water. The ripples refract the light creating a subtle change in appearance depending on the angle viewed. Light is brighter in the center, fading off towards the edges, the diffuser sits deep in the fixture creating a sense of depth in front. Note: This is a discontinued model and limited to quantity on hand.

Shown in white opal
