Cirrus D1 Lens HE Warm Dim Suspension w/Power Center Feed

By PureEdge Lighting

Description

The Cirrus Power D1 Lens High Efficiency (HE) Warm Dim Linear Downlight Suspension with Center Feed is a linear LED fixture that offers direct light in a clean, contemporary style. Available in various increments from 36 to 120 inches with a 100 degree white diffused direct downlight lens, a variety of finishes, 5 LED watts per foot, and Warm Dim 2700K to 2000K (27D) or 3000K to 2000K (30D) color temperature. Unlike standard LEDs, Warm Dim LEDs are designed to shift to a warmer color temperature as they are dimmed, replicating the effects of incandescent and halogen light sources. Includes a linear canopy with 120V/24VDC Universal (UNI) LED power supply and 12 foot adjustable coaxial cables. Additional aircraft cables provided for support when fixture exceeds 72 inches. Cirrus is dimmable with an electronic low voltage (ELV), Triac (magnetic), or 0-10V dimmer, sold separately. BR>Note: Product is built to order.
