Discovery Vertical Suspension

By Artemide

Description

The Discovery Vertical Suspension by Artemide, a groundbreaking concept from Ernesto Gismondi, masterfully blurs the lines between presence and absence, transforming from a seemingly imperceptible element into a breathtaking display of light. This fixture redefines what a luminous object can be. At its core, a slender ring, available in sophisticated Aluminum, Black, or Bronze finishes, subtly houses an advanced LED strip. This strip projects light into a specially engineered surface, composed of transparent PMMA and embedded with micro-particles so infinitesimally small that the surface is virtually imperceptible when the light is off. Yet, when activated, the transparent interior springs to life, appearing to magically fill with a perfectly diffused and uniform radiance, turning the void into a vibrant, emissive surface. This exceptional visual effect is not only mesmerizing but also highly functional. This fixture offers versatile control, being dimmable via both 2-wire dimming and 0-10V dimming systems, allowing for seamless integration into diverse lighting control setups and offering tailored ambiance.

Specifications

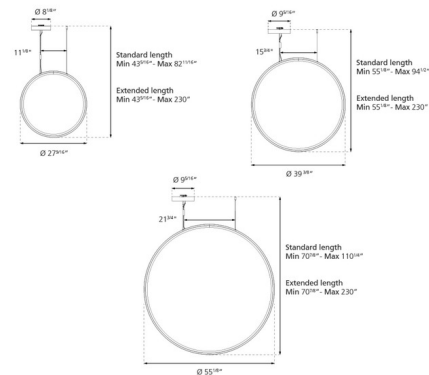

COLOR Transparent
BODY FINISH Polished Aluminum
WATTAGE 41W
DIMMER Low Voltage Electronic
DIMENSIONS 27.56"W x 43.4"H
INTEGRATED LED MODULE 1 x LED/41W/120-277V LED
COUNTRY OF ORIGIN Italy

Technical Information

PRODUCT DIMENSIONS Canopy: 8.2" diameter
COLOR RENDERING 90 CRI
LAMP COLOR 3000K
LUMENS/WATT 125.90
LUMINOUS FLUX 5162 lumens

Shown in polished aluminum / transparent
